The GSCCA University Scholarship

The Guernsey Society of Chartered and Certified Accountants (GSCCA) is delighted to announce its 2017 University Scholarship to support Guernsey students undertaking a degree course at a recognised university in the United Kingdom with the intention of pursuing a career in accountancy.

The GSCCA's aim is to provide a means of promoting the interests and concerns of accountants, act as a voice for the industry and provide a forum for members working in Guernsey.

The GSCCA is a home-grown society whose members determine and develop its services to provide relevant and effective support to accountants in Guernsey.

The Scholarship offered is for an amount up to £5,000 each year for three years of studying at a recognised University in the United Kingdom. As a guideline, students applying for this Scholarship should have predicted grades of 3 B's, equivalent to 120 UCAS points.

The GSCCA's aim is to make a real difference to the student in receipt of the Scholarship, and although no formal means- testing applies, preference will be given to students who may otherwise struggle with the funding of their tuition and maintenance. In addition to the provision of this Scholarship, the GSCCA has received commitment from a number of professional services firms to provide assistance with work experience and work placement to the Scholarship holder during their time at university.

How to Apply for the Scholarship

Your application should be no more than 1,500 words and cover the areas set out overleaf. The closing date for receipt of applications is Tuesday 31 January 2017. Applications received after that date will only be considered in exceptional circumstances. A panel will be convened to review applications and it is expected that interviews will take place during February/March 2017, with the successful applicant announced in April 2017, pending results in the summer.

Based on current guidelines, certain students who qualify for funding may be subject to some form of deduction should they be in receipt of this Scholarship but the level of such deduction is significantly lower than the amount of the Scholarship awarded.
